1.1	Usage	3
1.2	API	3

Miraculous Maker is a Discord bot written in Python. It has many features - ranging from an economy system to giveaways, all the way to a premium music plugin. It runs using [nextcord](#) on [Python 3.10](#).

Check out the [Usage](#) section for further information, including how to configure the bot and use the dashboard.

Note: This project is under active development.

CONTENTS

1.1 Usage

1.1.1 Configure

To use Lumache, first install it using pip:

```
(.venv) $ pip install lumache
```

1.1.2 Dashboard

To retrieve a list of random ingredients, you can use the `lumache.get_random_ingredients()` function:

The `kind` parameter should be either "meat", "fish", or "veggies". Otherwise, `lumache.get_random_ingredients()` will raise an exception.

For example:

```
>>> import lumache
>>> lumache.get_random_ingredients()
['shells', 'gorgonzola', 'parsley']
```

1.2 API
